

Technical Note TN-682

Orca Calibration Software V 3.2.0

14th August 2001

Applicability

This Technical Note applies to all Tait Orca series. Elan, Excel, 5010, 5020, 5030, 5035 and 5040.

1. Information.

This commercial upgrade 3.2.0 was based on 3.1.0. This release provides the necessary change to the calibration values needed for the new hardware to be used in the band B (136-174MHz) radios.

Other changes made:

- The PA bias has been changed to correct an error. See TIMS 00002188.

2. Issuing authority
