Tait Orca Conventional To Trunking Conversion
March 22, 1999

Applicability :   Tait Orca Conventional hand portables

Explanation :   The following procedure must be followed to convert Tait Orca conventional hand portables to trunked .

Note : Tait Orca Elan hand portables prior to serial number 14013731 , and Orca Excels prior to serial number 14013791 will need to be returned to a Tait CSO to be converted to a Trunked radio.

You will require current versions of the following Tait Orca software packages

Tait Orca Software download system
Tait Orca Trunking Radio Firmware
Tait Orca Model Configuration system
Tait Orca Programming Software for Trunked Radios.

1) The radios serial number must be provided to a Tait CSO so that the new ECC numbers can be generated .

2) Using the Tait Orca download software package , download the current Tait Orca trunking firmware into the radio .

Note : To put the radio into download mode switch on the radio while holding down the green function button.

3) Using the Tait Orca configuration software program in the new ECC.

4) To complete the conversion process the radios must be programmed with a valid data file using the Tait Orca Programming software .

Note : The ECC numbers issued for each radio serial number are unique to that serial number.

Customer Service Organisation: Please ensure that all internal sales/service staff are informed and also dealers at your discretion
