

# Base Stations Product Update

## July 2006

<b>Date</b>	7 <sup>th</sup> July 2006
<b>From</b>	Margaret Grant – Infrastructure Product Manager

### TB8100 Subrack Changes

We want to make your life easier. So we have rationalised the number of subracks used on the TB8100. Instead of 17 subracks to choose from, stock or amend, there will only be four!

We will be building with these new subracks from 10<sup>th</sup> July.

#### New Subrack Product Codes:

TBA2510 Single Channel with PMU Subrack  
 TBA2515 Single Channel 12V PA-only Subrack  
 TBA2520 Dual Channel Subrack  
 TBA2530 Multi Channel Subrack (for receive-only)

#### Guide to ordering:
