Technical Note TN-568

Tait Orca Excel Conventional Firmware

24 March 1999

Applicability

This technical note applies to Tait Orca Excel conventional hand portables.

Change in Radio Firmware

Tait Orca Excel conventional firmware has changed to version 1.04, all radios manufactured from serial number 14014515 will be fitted with ver 1.04 firmware .

Ver 1.04 addresses the following :

The maximum volume level is now set to the calibrated maximum volume setting during normal operation (instead of the maximum setting of the volume pot) .

Programming software

Version 1.04 firmware requires programming software ver 1.06 or later.

Note to CSOs

Please pass this information to all internal sales and technical staff, and to all dealers.
