Technical Note TN-567  
Tait Orca Elan Conventional  
Firmware

24 March 1999

**Applicability**

This technical note applies to Tait Orca Elan conventional hand portables.

---

**Change in  
Radio Firmware**

Tait Orca Elan conventional firmware has changed to version 1.05, all radios manufactured from serial number 14014567 will be fitted with ver 1.05 firmware .

Ver 1.05 addresses the following :

The maximum volume level is now set to the calibrated maximum volume setting during normal operation (instead of the maximum setting of the volume pot) .

**Programming  
software**

Version 1.05 firmware requires programming software ver 1.06 or later.

**Note to CSOs**

Please pass this information to all internal sales and technical staff, and to all dealers.

**Issuing authority**
