

Technical Note TN-570
**New Software Help File
Version 3.06**

6 April 1999

Applicability

Tait Orca Hand Portable range, T3000 Hand Portable range and the T2000 Mobile Radio range.

Purpose:

To inform Tait CSO's, dealers and customers what software is currently available in all Mobile Radio product ranges and what changes have been made in the development.

Information:

All software changes are listed in the document under the heading "What's new in this version?".

Instructions have also been added on how to use the software help file.

The new Software Help file is available for download on the TaitWorld Technical Database under the Mobile Radio Software Version Information section. The file name is **MRD Software Help File V3.06**

CSO's please inform dealers and customers at your discretion.
