

Technical Note TN-572

Introduction of the T3000-1062 IS battery.

21 May, 1999

Applicability

Only applies to the T3000 IS battery range.

Explanation

The T3000-1052 IS 1200mAh NiCd battery has been replaced by a 1500mAh NiCd version called the **T3000-1062**.

The 1200mAh NiCd cells have not been ordered for some time in anticipation of the change over to the 1500mAh NiCd cells. The 1200mAh NiCd stock has nearly depleted.

The **T3000-1062** 1500mAh NiCd battery has already been tested and approved by Factory Mutual.

Production of the new battery type began last week and will soon be the standard battery packed with IS radios.

First Serial Number for T3000-1062: **10197946**
