Technical Note TN-564

Tait Orca Trunking To Conventional Conversion

17 March 1999

Applicability: This Technical Note applies to Tait Orca Trunking hand portables.

1.   Conversion Procedure

Introduction: The following procedure must be followed to convert Tait Orca Trunked hand portables to conventional operation.

Software required: You will require current versions of the following Tait Orca software packages:

Tait Orca Software download system.
Tait Orca Conventional Radio Firmware.
Tait Orca Model Configuration system.
Tait Orca Programming Software for Conventional Radios.

Note: The ECC numbers issued for each radio serial number are unique to that serial number.

Method: 1) The radios serial number must be provided to a Tait Customer Service Organisation, so that the new ECC numbers can be generated.

2) Using the Tait Orca download software package, download the current Tait Orca Conventional firmware into the radio.

Note: To put the radio into download mode switch on the radio while holding down the green function button.

3) Using the Tait Orca configuration software, program in the new ECC.

Tait Electronics Limited   Telephone: +64–3–358–3399
PO Box 1645, Christchurch, New Zealand   Facsimile: +64–3–358–3903

4) To complete the conversion process, the radios must be programmed with a valid data file using the Tait Orca Programming software.

Customer Service Organisation: Please ensure that all internal sales/service staff are informed and also dealers at your discretion.
