Technical Note TN-708

Current Standard Firmware and Programming Software for Tait Portable radios

18 April 2002

Applicability

This Technical Note applies to all **standard** production Tait T3000, Orca original and Orca 5000 portable radios.

1. Information

Details

This Technical Note provides information on the current production Firmware for standard T3000 and Orca portable models. It does not provide information on non-standard or customer specific radios. It does not refer to any TCI (Tait Custom Integration) Firmware or Software.

The PGM Software versions listed below are the oldest that can be used with the related Firmware.

	Firmware Versions		
Radio	**Conventional**	**Trunked**	**PGM software**
T 3010	v2.01		PGM3010 v2.01
T 3020	v1.18		PGM3020 v2.01
T 3030		v2.16	PGM30TR v2.19
T 3035		v2.20	PGM30TR v2.19
T 3040 std		v2.35	PGM30TR v2.28
T 3040 data		v3.14	PGM30TR v2.28
Orca Elan	v1.21		CPA v3.4.0
Orca Excel	v1.21		CPA v3.4.0
Orca Eclipse	v1.21		CPA v3.4.0
Orca Elan		v3.14	TPA v3.2.0
Orca Excel		v3.14	TPA v3.2.0
Orca 5010	v2.03		CPA v3.4.0
Orca 5020	v2.03		CPA v3.4.0
Orca 5030		v4.12	TPA v3.4.0
Orca 5035		v4.12	TPA v3.4.0
Orca 5040		v4.12	TPA v3.4.0

The table above is accurate as of the 18th of April 2002.
New Technical Notes will be released when newer Firmware is released.
